

Spring 2025 Continuity

Job Title: Deputy Commander

Immediate Chain:

→ Wing Commander

Area of Responsibility:
Responsible for providing direction and oversight in the execution of leadership training for the Cadet Wing.

Weekly Flow: Every week I have meetings with Cadre and meetings with Command Staff to ensure that the weekly operations go on as planned and address wing issue.

Struggles I Experienced:

1. Some miscommunications when delegating tasks to COS/A-staff
2. Having to keep up with some taskers from Cadre
3. Some Cadets Wing issues

How Did I Address the Struggles?

1. Addressing COS, and making sure that taskers are well understood and necessary action need to be taken
2. With Cadre, you have to be flexible and adapt as they have the ultimate say on things
3. With sensitive Cadet Wing issues, cadre is mostly aware about these, but my advice is to convene with command staff and cadre to have a good course of action

Advice:

- Communicate and Plan with Wing Commander as often as possible
- Be their Devil's Advocate
- Be willing to ease their workload and you are the main liaison for taskers between them and Command Staff
- Be tracking Wing goals and their goals as well and see what is need to accomplish them
