

NSOP 2023 Notes

Basic Schedule: Cadets entered, did paperwork with cadre, lunch, tours/GLPS/meetings with their flight CC's.

NSOP was an event that was a few days long, meaning new cadets had the option to come in and do all their paperwork early, so cadre had it easier the day of NSOP. Not all cadets did this, so many just stayed sitting for an hour the day of the event.

Issues that occurred: Scheduling between both cadets organizing the PDT has different schedules. One had a good schedule, but the other was working full-time in construction. One carried a big load as the other only attended 30% of the IPR meetings. Having a 3rd cadet like they did a year later would have been great for both cadets.

Overall, the event was successful, only bumps occurred due to miscommunication and negligence of sensitive information. (Cadets' records were left behind accidentally, and information was not given correctly that NSOP participants were over-charged. Which caused a large amount of refunds to occur)
