

Good Morning Det 842,

As mentioned after LLAB we have LRC's coming up very fast. This will be **Saturday March 1st** at the **Chapman Annex** (maps link below). As forms are sent out please take the time to fill them out asap. At this point you should have a ride in mind and in the process of obtaining a helmet if you do not already have one. It can be a bike helmet, hiking helmet, your parents old helmet etc. You can purchase one for roughly \$10-12. If you have extras please express that in the tracker below. If you are familiar with this process, be a wingman. Please enjoy your day. Let's get after it!

Good Morning Det 842,

In preparation for LRC's please fill out this form. If you have extras it would be great help if you can bring them for a wingman. Wearing gloves will be a mandatory safety requirement. You don't need to go out and spend a lot of money for a pair. Just bring what you have readily available.

Good Evening POC,

We are going to need 2 evaluators per station in order to capitalize on time and attempt to get everyone to lead an LRC. Non-Ops will form the "Assembly" and "Evaluator" groups. I need volunteers for both groups.

Additionally, I need a few volunteers for Wednesday the 26th for a visit to the **Chapman Annex** to go over some logistics and for some evaluators to get eyes on the course as well. This will be prior to LRC's.

Good Morning POC,

Flight Commanders I am tracking only 3 cadets (all in Charlie flight) who plan to drive but do not have base access per the carpool sheet. Please VERIFY with your flights that this is correct. Everyone needs to have a ride and if they don't have base access but plan to drive I need to know by Thursday COB to get forms sent out for them. Remind them they will have to go to the visitor center prior to the day of LRC's to get a visitor pass. It is a lengthy process so we need their names asap.

We will be having two evaluators per station at LRC's. I will be making a diagram this weekend on how rotations will work for a clear visual. Flight commanders will start off at UTSA with their

flights for accountability but once at Chapman Annex they will transition into their designated station as an evaluator.

STATIONS not working 1,4,5,17

Evaluators

Non-OP: Jones, Atkinson, Branson, Oya, Parry, Molloy, Hernandez, Wargo, Cavazos, Osborne-Mahiques, Arias-Figueroa, Quilantan  
Op: Fulk, Anderson, Magnusson, Starr, Superales, Al Luhailbat, Mena, Pollexi, Navarro, Oveson, Fanning, Gibson, Caro, Mason

Assembly: Kit, Burton, Martin, Parry, Jara, Mena, Rodriguez

Not going: Eggers, Schreffler, Douglas

Good Morning Det 842,

Attached are the OPORDS for LRCs. Items you should have

- Gloves
- Helmet
- Black watch
- Black backpack
- Writing material
- Photo ID
- Water
- Snacks
- Copy of OPORDS
- Hand Sanitizer
- Sunscreen (Min. 1 person in group)

See link for LRC Group assignments

<https://docs.google.com/spreadsheets/d/101IFaFj582HI4e5o6OnfnEVkcdkeeliMa2hoD7aW0jE/e/dit?usp=sharing>

If you have any questions please run it up the chain.

Good Afternoon POC,

This will be the evaluator group channel for LRCs. We will have 1 Op evaluator and 1 non-op evaluator per station with the exception of the last station. 1 evaluator will be executing with a group while the other debriefs with the other group and prepares the incoming group for execution. *Similar to FT*

For example Group A1 is executing in “The hangman” *15 mins pass*

Group A1 transitions to the outside of “The swamp” by fence for debrief  
Group B1 enters “The hangman” for execution *15 mins pass*

Group B1 transitions to outside of “The swamp” by fence for debrief  
Group A1 enters “The drum” for execution. Etc

Basically in then out every 15 mins rotating to the next station on the right every time (clockwise)  
The graph below gives you a visual of what I'm explaining.

**Critical information:**

- Project X course**

A group- Executing  
 B group- Debriefing/break  
 (Last 3 mins of debrief timeframe next lead assigns positions)

**Course Layout:**

1. The hanging bridge	2. The hanging bridge	3. The Medicine	4. The Curse Release
5. The string	6. The Sewers	7. The Death	8. The Swamp
9. Hangman	10. The Amazon	11. The demolition	12. Sabotage
13. Tarzan's Jungle	14. The Impossible Dream	15. The Pyramid	16. The Mine Field

**Group Assignments:**

  - A group flights:** Stations 1, 2, 3, 4, 9, 10, 11, 12
  - B group flights:** Stations 5, 6, 7, 8, 13, 14, 15, 16

**Legend:**

  - Gazebos
  - Restrooms
  - Blue Triangle

**Compass:** N, S, E, W

**Path:** Clockwise (indicated by a red arrow)
