Charlie	Vu, Henry	Mena, Abraham
Delta	Gonzalez, Alejandro	Osborne Mahiques
Echo	Acevedo Cruz, Carlos	Harris, Brandy
Foxtrot	Bowlby, Phaedra	Hotchkiss, Adam

Description
CTAs / Flight Commanders will essentially be stepping into the role of a CTA for the day. You will be attached to a flight and you will ensure the safety of your flight at all times and ensure that your flight is reaching each of their scenarios on time while also documenting them and giving them feedback and letting them know if they feel it may be necessary. Be sure to contact the SAC DRAG officer if a Flight is present. There will be debriefs following each mission scenario where mission scenario evaluators get ~5 minutes to speak with FTP cadet leaders; after that debrief, the FTP cadets who were in leadership positions will conduct ~5 minute long debriefs with their flights. You may step in or speak up at any time during these debriefs, but please be respectful about joining in on these and try to keep it to a minimum. There will be some time at the very end of the day where CTAs / Flight Commanders can debrief the whole day with their flights, and have some locked-off conversation about how things could have gone better on both their end as well as yours. Make sure you review the ROEs for your duties of the day. Provide a Field-Training-like environment. No intense screaming without a purpose, but ensure URGENCY of your Cadets.

Safety Team

Roles

Lead	Jackson, Javohn
------	-----------------

Scenario 1	Superales, Danisha	Oyarekhua, Ephraim	Riepma, Hunter
Scenario 2	Rogers, Luke	Molloy, Ryan	Burton, Nicholas
Free Roam	Duquette, Blake	Jackson, Javohn	

Description

The Safety Team's mission will be to ensure the safety of all cadets at all times. The first duty of the day for you will be to make sure that all cadets from each detachment successfully find their flights upon arrival at Lackland-Medina Annex in the morning. Once all the cadets have reached the PACER FORGE facilities for In-Processing, be ready to give safety briefs to each of the five flights.

After giving these safety briefs, if the equipment team is in need of any support, you will be the people there to support them until it is time to move on to mission scenarios. At your mission scenario, you will indicate to the cadets any safety concerns of that scenario, and you will specify where the water station is. Inform the cadets before and after each scenario that these times would be best to get more water. During lunchtime you will again support the equipment team if they need you, then after lunch you will return to your mission scenario zones.

SME: Base Def/TCCC/MARCH

Roles		
	Combat Triage	ECP
Lead	Schrecker, Shelby	Rodriguez Vara, Francisco
1	Erlewein, Anely	Shreffler, Evan
2	Holzweiss, Nicholas	Al Luhaibat, Taha
3	Huber, Holly	Bueno, Bethsheeba
4	Onafeso, Fovour	Ma, Apollo
5	Sly, Dominic	Rodriguez, Caden

Description
The SME team will be stationed at a designated scenario (If you're OPFOR, Proceed to secondary role). TCCC/MARCH SMEs will be helping out Active Duty SMEs where needed. Base Defense SMEs will help Active Duty SMEs go over crucial points such as, ECPs, Sentries, Overwatch ,Quick Reaction Force (QRF). TCCC SMEs will go through the steps on how to care under fire, critical time to care, tourniquet application, and MEDEVAC 9-Lines. MARCH SMEs will review and go through why each letter is important to ensure you provide the best care. After you help teach your subject, you will evaluate Cadets within the criteria of the subject you're teaching. EX: TCCC SMEs evaluate Cadets on their performance in providing care and 9-lines. GIVE IMMEDIATE FEEDBACK IF POSSIBLE. This is a teaching / learning environment.

Description

of OPFOR

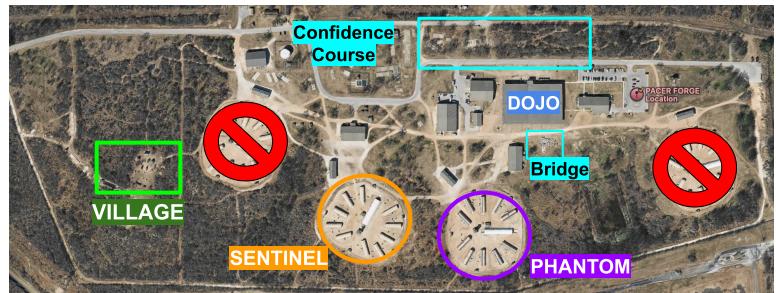

You will be assigned to one scenario for the entirety of the day. If you are OpFor, but do not have any sort of job in the morning, you will help ensure urgent intensity as cadets arrive to PACER FORGE as they head to In-Processing. Just because you don't have a job specified for you in the morning, that does not mean you get to arrive incredibly late. Each scenario has a description on what OpFor should be doing.

1 Douglas, Nevaeh*		*team lead			Please read your scenario and know what you are doing. You will have a folder provided to you with everything for the scenario (Eval forms, INJECTs, Scenario cards, maps, etc.). For evaluating, it is however you want to run it. If you believe you have enough to make the evaluation on the leader or they are taking too long to make any moves then switch them out with the deputy by any means reasonable (ie. simulated death, or BDOC fires them). Your counterpart is there to help you out. Split up if the teams are split up to ensure you are evaluating the entire flight. Give a debrief totaling 5 mins max (a 1-2-2 shown on the evaluator sheet). Extra time may be used for team lead to brief their team.
